

MA01

NEW Design Monitor Arm with strength adjustment and sound feedback

MA01 is an ergonomics innovation design display arm that allows you position your monitor wherever you need it so you can work in ergonomic comfort. It helps increase viewing comfort and reduce eye, back and neck strain. Height adjustable arm provide more workspace, push away and free up table or desktop space when not in use.

With the new creations 3Q + 1 D, Quick tension adjustment with sound feedback, Quick fixture, Quick mount and Force display (2 sides), it makes differences from other versions in the market. It's a great product you are waiting for.
