

# Screen 2

## Ultra-light Wooden Acoustic Reflection Filter Screen

Screen 2 is an ultra-light Wooden Acoustic Reflection Filter Screen with wave design. The Wood Isolation Sound Booth Microphone Shield features sound dampening foam that blocks unwanted sounds from your recordings. It creates an acoustic boundary around the microphone that improves vocal audio flow. Perfect for studio vocal booths, home podcast recording & singing. It comes with all standard mounting hardware to support easy setup to most recording Equipment and microphone stands without the hassle of extra assembly. It creates your own personal recording booth.
